

# Ocean Carrier Management

Leave your ocean freight management to us

World-class technology and consultancy at your service so you won't miss any advantage of your own contracts with shipping companies.

Get better control over your maritime operations and improve the communication with your suppliers.

## Rates

From 1 to 2 containers:  
150 USD each Bill of Lading (BL)\*

\*+40 USD each extra container.  
The container package must be included in the same BL.

✓ **Let's implement SOPs and KPIs**  
together with you, to ensure our services quality improves continually.

✓ **Let's verify**  
your contract's terms and conditions are fully complied.

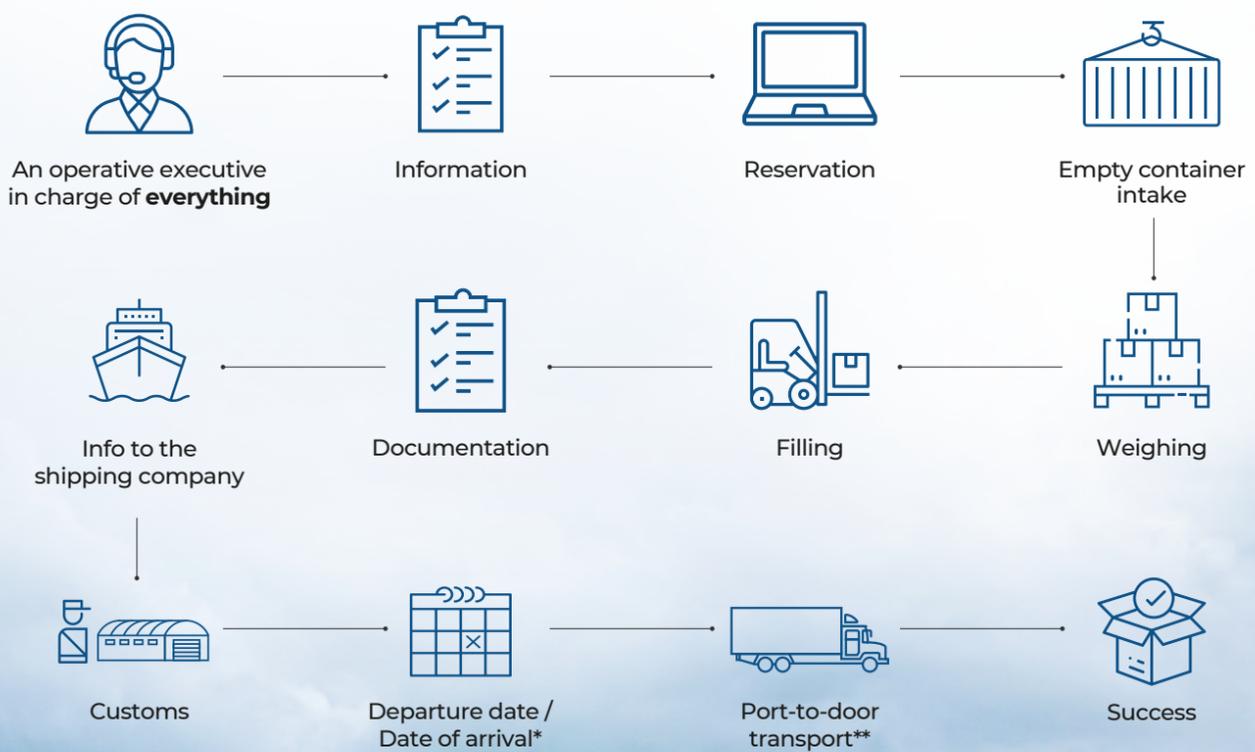

✓ **Let's coordinate the execution**  
of your ocean freight processes on time and correctly, with one single contact point in EP, to minimize risks and ensure efficiency.

✓ **Let's get you an exclusive access to a control tower,**  
a private and safe portal to track and trace your shipment.  
You can also get rates, download files, invoices, reports and analysis of your operations.

More than the great advantages that you already negotiated with the shipping companies, you need the entire operation to be perfect and visible 24/7-365! Our management includes:

- ✓ Monitoring and information on days available at origin and destination
- ✓ Continuous visibility of operational process status
- ✓ Reservations generated with the shipping company under your contract
- ✓ Coordination of services with the shipping company, ground freight and customs agent to align processes
- ✓ Support from local teams in more than 70 own offices
- ✓ Reports management
